

# How To Use The Bow Maker Tool

1. With the cut end of the ribbon wrap the ribbon around the two posts going behind the two posts from the right to left side.
2. Bring the cut end of the ribbon around to the front and make a cancer ribbon (left over right).

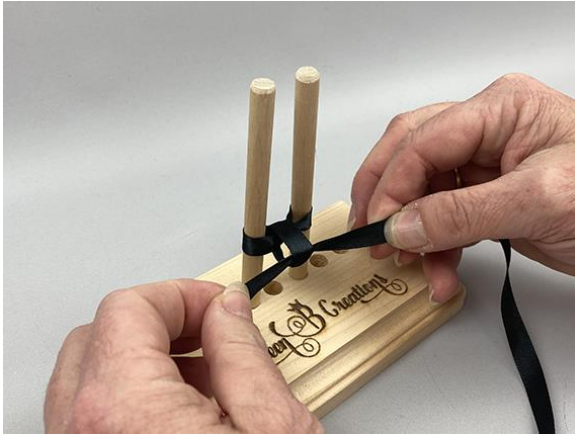

3. Take the top ribbon, in right hand and push it under the ribbons to the back.

4. Pull that back ribbon up and over ribbons to the front.

# How To Use The Bow Maker Tool

5. Tie a knot.

6. You now have your bow.

7. Pull bow up and off the posts.

8. Cut ends.

9. Apply to project.
